

## GREEN PARTNERS LTD QUALITY POLICY

**GREEN PARTNERS LTD** is a consultancy company **providing services designed for businesses and management, services in the environmental field, environmental economy and community development.**

We offer consultancy services for governmental bodies and industry; we act as local partners or take part in consortia with multinational environmental consultancy companies for business development in our specific fields of activity. We deliver consultancy services based on an integrated approach.

In our work we aim for highest quality standards. This will be achieved by our commitment to:

- Design, implement and certify the Quality Management System in line with SR EN ISO 9001:2015 standard and integrate the system's requirements into our business plan;
- Meet in real time our customer's requirements;
- Maintain and improve the Company's performance, always taking into account the market dynamic;
- Train our employees in order to improve the professional related knowledge;
- Acknowledge and appreciate employees when reaching the proposed quality level;
- Continuous improvement of the Quality Management System implemented according to the SR EN ISO 9001:2015 standard.

Our Quality Policy is accessible for all interested parties at the company's office and on our website.

To ensure the adequate implementation of processes, in order to meet the client's and other interested parties' requirements and accomplishing in reaching the Quality Management System objectives, the management, at the highest level, commits to grant resources and to review on a yearly basis the Quality Management System.
